    <h1>How to Embed a YouTube Video into Your Website</h1>
    <p>Follow these easy steps to embed a YouTube video using HTML.</p>
  </header>

  <main>
    <section class="step">
      <h2>Step 1: Find the Video</h2>
      <p>Go to <a href="https://www.youtube.com" target="_blank">YouTube</a> and
open the video you want to embed.</p>
      
    </section>

    <section class="step">
      <h2>Step 2: Click the Share Button</h2>
      <p>Under the video, click the “Share” button to open the sharing options.</p>
      
    </section>

    <section class="step">
      <h2>Step 3: Choose 'Embed'</h2>
      <p>In the pop-up window, click on the “Embed” option.</p>
      
    </section>

    <section class="step">
      <h2>Step 4: Copy the Embed Code</h2>
      <p>Copy the HTML iframe code shown. This code is what you'll paste into your
HTML file.</p>
      
    </section>

    <section class="step">
      <h2>Step 5: Paste the Embed Code into Your HTML</h2>
      <p>Open your HTML file and paste the embed code inside the <body> where
you want the video to appear.</p>
    </section>

    <section class="step">
```

```
<h2>Example Embedded Video</h2>
```

```
<p>This is the actual video we used in the steps above, now embedded into the  
page.</p>
```

```
<iframe width="560" height="315" src="https://www.youtube.com/embed/VIDEO_ID"  
title="YouTube video player" frameborder="0"  
allow="accelerometer; autoplay; clipboard-write; encrypted-media; gyroscope;  
picture-in-picture"
